Word of Life . . .

And he said unto them, Go ye into all the world, and preach the gospel to every creature. Mar 16:15

At Nehemiah Network health care clinics we use medicine as a means for ministry. The free health care are used as a draw so we can offer a spiritual salvation message that is eternal.

Through Nehemiah Network Health Care Clinics, we care for both the physical and spiritual needs of the patients

What is a MAP a International Travel Pack?

Map packs are pre-packaged containers with approximately \$12,000.00 (wholesale value) worth of essential medications. The packs are made up of medications that have been identified as necessary in developing countries. They are compact, fully, stocked, portable pharmacies that are easily transported anywhere. The cost for each pack is around \$500.00 which includes shipping costs, custom order medication and supplies.

What types of medications are in the Travel Pack?

MAP International has worked with doctors familiar with short missions trips to formulate which medications would be included in the pack. There are pain relievers, antibiotics, antidiarrheals, antiparasitics and vitamins to name a few.

Why purchase a MAP travel pack instead of just trying to get the medications donated?

MAP works with doctors that have years of experience working in developing countries and are very familiar with the health problems being faced in these environments. MAP will only use medications that are approved by the FDA and are not expired. MAP works with the World Health Organization to ensure the highest standards are met.

What does this mean to me?

With the travel pack priced at around \$500.00, this could easily become a small group, family or Sunday school class project. Even if you are unable to travel with us, you could participate in our clinics through the purchase of one of the MAP packs and be a very essential part of our team.

Sharing the gospel at a Nehemiah Network Health Care Clinic

“I want everyone to have this opportunity...” ~ Dr. Deb Palmer

“Wow! The power of the Holy Spirit- to put this group together, to make us of united mind and purpose – and to save souls.”

~ Dr. Rick Peace

“I was fortunate enough to travel to Guatemala to participate in a healthcare team through Nehemiah Network of Word of Life. I was able to use my abilities of osteopathic medicine to help some unfortunate individuals. Our team was able to reach these people not only on a medical, but spiritual level. ...I had the opportunity of being humbled by these new friends and patients, who I witnessed as being some of the happiest that I have ever met.”

~ Dr. James Paugh II

“Each trip punctuates where I am spiritually and how I can know and better serve God’s people. (Nehemiah Network) is a “frontline” ministry effective in bringing the Gospel to unreached and impoverished people.”

~ Dr. Andrew Bright
